CLAIMS: *The following is a listing of all claims in the application with their status and the text of all active claims.*

1. (Canceled)
2. (NEW) A conspicuity device for people and vehicles, comprising in combination:
 - a. Flexible fringe material wherein the same piece of material forms both the strip used to attach said fringe to the item for which conspicuity is desired, as well as the plurality of depending members characterizing said device as fringe,
 - b. Said members comprised of retro-reflective properties on all or part of one or more surfaces.
